

K-01-CX-CKN-smallness-propagation-kill-test v1

ZFL-CX

September 3, 2026

Barrier: CKN $\boxed{r^{-2} \iint_{Q_r} (|u|^3 + |p|^{3/2}) \leq \varepsilon_{CKN}}$ UPPER/SMALL vs F-01 $\boxed{\|u(t_n)\|_{L^3(B_{r_n})} \geq \varepsilon_0}$
LOWER. Even $W_+ \lesssim r_n^{-3}$ gives $\int^{T^*} r_n^{-3} = +\infty$. KILLED.
